

# Commercial Finance Analyst – Central & Corporate

*Providing financial insight, supporting operational efficiency, and enabling strategic decision-making across Central and Corporate functions*

## WHAT I AM ACCOUNTABLE FOR

- This role will deputise for the Commercial Finance Manager.
- Support the Commercial Finance Manager with the organisational-wide budget setting process. Prepare budget setting and monthly performance reports.
- Collaborate with wider finance teams including analyst colleagues, Business Partners, Financial Control Teams and the Senior Finance Leadership.
- Act as a finance partner to Central Support Functions, delivering actionable insights and financial support.
- Lead budgeting, forecasting, and financial planning processes for Central Support Functions.
- Lead monthly performance reporting with variance analysis and commentary for Central Support Functions.
- Provide robust financial modelling and scenario analysis to inform strategic decisions.
- Analyse cost drivers, identify efficiencies, and support cost control initiatives.
- Support investment appraisals and business cases for key initiatives across Central Support Functions.
- Support with the development of reports and dashboards to track performance and drive accountability.
- Ensure compliance with internal controls, accounting standards, and governance processes, maintaining relevant policies and procedures.
- Support the delivery of the finance strategic plan and continuous improvement of the team.
- Act as finance representative on wider business projects as relevant to the role.
- Escalate any risk or opportunity as they arise.

## HOW I OPERATE

### Values Led Leadership

- Build and maintain effective relationships with internal stakeholders, being open and listening to improve.
- Collaborate with peers and stakeholders to achieve the best outcomes possible.
- Solve complex problems, innovating to support continually improvement.
- Take ownership and be accountable for actions and decisions.
- Apply management information, and market and organisational knowledge, to support business decisions.
- Understand the needs of the stakeholder, and the organisation, acknowledge what is important, and adapt styles to drive success.
- Proactively share and encourage ideas through regular input and discussion with colleagues and stakeholders.

## WHAT I NEED

### Skills \ Knowledge

- Ambition to become the next Commercial Finance Manager in Turning Point.
- Part-qualified / finalist in a finance relevant qualification (ACA/CIMA/ACCA).
- Experience of working in a commercial, analytical or management accounting role is required.
- Strong communication and interpersonal skills to build and maintain relationships.
- Confidence to challenge, have an eye for detail and offer recommendations to deliver business benefit.
- Highly motivated, logical and commercially minded with a can-do attitude.
- Ability to work autonomously, with a proactive and creative approach to problem solving.
- The ambition to conduct further study in a beneficial or relevant field is welcomed.
- Industry knowledge across the health, social care or housing sector would be advantageous.
