JOB DESCRIPTION – Quality & Compliance Manager

Service/Department Operations Substance Misuse
Reports to (Job title) Senior Operations Manager 4
To provide direct support to the service to ensure that service governance and compliance is effectively managed and delivered. To enable the service to implement TP's best practice models to improve staff competence and improve the quality and performance of service. To work closely with Risk and Assurance departments to ensure regulatory and compliance issues are addressed in services. Work closely with L&D in relation to training and staff competence. To ensure the sharing of good practice and development of new ways of working. To support new developments within the service such as model development, new ventures and partnership management. Key accountabilities • Acting as an expert in Substance Misuse locally to provide guidance and hand on support to operational and strategic managers in relation to: • Regulatory and mandatory requirements of treatment and support, including CQC standards and Health & safety matters • Internal (TP) reporting processes – assisting operational managers in scheduling and completing these tasks • National guidance, best practice and statute in the design and delivery of treatment and support. • Staff competence, including training requirements, CPD requirements, audit processes and supervision/observation processes.
